

# A Quick Overview of the Global Vape Shop Database

Explode your B2B sales with our Global Vape Shop Database and Vape Store Email List. Our Global Vape Shop Database contains contact details of over 22,000 cbd and vape stores from around the world and will help you to connect with thousands of vape shops in a click of a button! Our vape shop leads comes in an Excel spreadsheet and cover the most of the world!

You will receive a copy of the Global Vape Shop Database and Vape Store Email List. This vape store database contains contact details for practically all the vape shops in English and non-English speaking countries, including USA, UK, Germany, France, Australia, South Africa, Canada, parts of Europe, Asia, Russia and CIS and the rest of the world.

The vape shop leads come in an Excel .csv file and contain the following data: emails, websites, telephone numbers, addresses and social media links. The e-cigarette shop database is ideal for connecting vape wholesalers, manufacturers and e-liquid brands with vape shops.

In addition to these vapor store leads, we also have individual databases of CBD stores, health food shops, convenience stores, supermarkets and an email list of ALL vape companies in the world. Our global vape shop database partially covers CBD shops because some vape shops sell CBD products.

The entire data base is created using our proprietary Search Engine Scraper by Creative Bear Tech, the most advanced website and search engine scraper on the market that allows us to scrape comprehensive and niche-targeted marketing lists.

All ecigarette store data is GDPR compliant as per our GDPR statement.

## Here are the ways in which you can use the Global Vape Shop E-Mail List to Power your Vape Marketing

**Newsletters:** newsletters remain one of the most important vape marketing channels, especially for e-juice brands and vape wholesale and distro companies. Newsletters are perfect for getting instantaneous results. You will have the ability to pick out the email addresses as well as any other details such as the vape shop names and load them into your newsletter service. Then, BAM! In a click of a button, you can contact all the vape shops around the world.

**Targeted E-Mail Campaigns:** some of our clients like to take a more measured and focused approach to vape marketing by contacting vape shops on a country-by-country basis because it can be more effective, especially with the ability to schedule email campaigns according to different time zones.

**Direct Marketing:** you can use the vape shop contact details to send out free e-liquid and vape product samples along with your marketing brochures and leaflets to vape shops so that they can try out your e-liquids before committing themselves to a purchase. We have found that this marketing method can be very effective because it allows vapers to dictate the purchasing decisions of vape shops: if many vapers love a certain e-liquid then a vape shop will have no choice but to order it!

**Social Media Marketing:** you can use the Global Vape Shop Database for social media marketing. You can look up each vape shop on Facebook and Instagram and then engage with it via the social route. However, do bear in mind that social media marketing is meant to be social and you should therefore try not to sell too hard.

**Road Trips:** There are a couple of e-liquid brands that did a road trip to visit every single vape shop in their area. Once they saw the success rate go through the roof, they recruited people to emulate this model across different countries. This e-juice brand is now one of the best-selling e-liquid brands in the world! This marketing method may not be accessible to vape companies with smaller budgets, but you can definitely try it out in your local area!

# Why Over 500 E-Liquid Brands and Vape Wholesale Companies have Chosen Our Global Vape Shop Email List

**Complete and Comprehensive:** Our Global Vape Shop Database has been growing strong since 2012 and has powered many e-liquid brands! We like to call it the secret sauce behind the success of many e-liquid brands! We have over 20 people who regularly attend almost every single vape exhibition where they forge relationships with vape shop owners and acquire new vape shop contact details. Our team is fluent in many languages and familiar with different vape markets which subsequently allows us to add even the most hidden of the vape stores!

**Very Good Value for Money:** our vape shop email list is extremely cheap in comparison to what the other lead generation companies charge. Expect to pay around £3,000+ on top of monthly update fees for a similar database. We have intentionally decided to keep our database affordable and accessible. A vast proportion of our proceeds are re-invested into maintaining and updating our database. Value and quality are definitely some of the most important elements that make our vape store database the best on the market.

**FREE Regular Updates:** what separates our Global Vape Shop Database from other lead generation companies is the fact that we update it on a regular basis to bring you a complete list of vape shops from around the world. We do not charge any hidden or monthly fees. All updates are free and are sent to the inboxes of our customers automatically. Please ensure that you check your junk folder and whitelist us to make sure that you receive your download link without any issues. When performing the updates our team performs a lot of online research and even verifies and cleans the emails by removing all abandoned mail boxes and domains. This helps to reduce email bounce rate as a result of defunct mail boxes!

**GDPR Compliant:** our vape shop database contains only company details that are accessible in the public domain. We do not provide private emails or contact details. Our Global Vape Store Database is compliant as per our GDPR policy.

**Extremely Powerful Marketing Tool:** our International Vape Store Leads is the most powerful vape marketing tool that produces near instant results. Whilst you should invest in the long-term SEO of your company, you should not overlook our database. Since 2012, our vape shop database has helped many e-liquid names and wholesalers to grow at a very exorbitant rate!

## Changelog

### June 2020 Covid-19 Update

This has been a major update to the Global Vape Shop Database this year. The entire global vape shop marketing list now contains over 20,000 entries. As you may appreciate, Coronavirus (Covid-19) has had a significant impact across local and online business across different industries. Many vape shops, especially the brick-and-mortar ones, have been forced to close down during these unprecedented times. During the entire period of Covid-19, we have scraped new vape shop data across all countries and removed all the vape shops that have closed down. We have scraped practically every important website source including Google maps, Google, business directories, specialist vape shop directories and have even checked and added all vape shop contact details

from our business cards that our team has acquired at almost every single vape exhibition and vape trade show during the past 5 years. We have cleaned the entire email list using our email verifier to remove all non-working emails. This has helped to improve the inboxing rate. We have added geo location data for more or less every single vape shop. The geo location data contains the country, city and region of where a vape shop's site is hosted. We have also added WHOIS data which contains the contact details of website owners where such details are public.

#### September 2019 (Major Update)

We have scraped a fresh database of all vape shops, CBD stores, vape juice brands and wholesalers, manufacturers and other vape and cbd related businesses. This vape shop database now has approximately 22,000 entries. During this update, we have incorporated CBD shop contact details because a lot of CBD stores also provide vape-related goods such as CBD e-liquid. We have incorporated all the CBD and vape shops into a single spreadsheet following requests from our clients. With your purchase, you will now receive 1) one master Excel spreadsheet file with CBD and Vape Shop Contact Details and 2) a list of emails of virtually all the vape and CBD related companies in the world (Around 40,000 emails).

#### July 2019 (Major Update No. 2)

As part of our summer update, we have created one additional master global vape shop database that contains a collection of over 30,000 vape shops around the globe (practically all vape shops in the world).

#### July 2019 (Major Update)

This has been one of the most important updates. As part of this update, we have created another version of the global vape shop database (version 2) that is now divided into USA, UK, Europe and Rest of the World. To compile the version 2 of the database, we have used the Search Engine Scraper and Email Extractor Software by Creative Bear Tech to harvest all the vape shops from major search engines including Bing and Google, Google Maps, business directories such as Yelp and Yellow Pages as well as the most popular social media platforms, including Facebook, Twitter and Instagram. Here's an approximate breakdown of the version 2 database:

UK - 1,200 vape shops

Europe - 1,500+

Rest of the World - in process of being updated

USA - in process of being updated.
